DETAILED ACTION

This action is in response to the papers filed 29 December 2003.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 2, drawn to a system for integrating standard telephone, standard legacy voicemail, and digital voicemail communication modalities as well as converting between analog voice signals and digitized signals classified in class 341, subclass 126.
- II. Claims 3-30, drawn to a system for integrating standard communication modalities as well as a messaging server for converting from a first communication protocol to a second communication protocol, classified in class 709, subclass 246.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as integrating standard telephone, standard legacy voicemail, and digital voicemail communication modalities as well as converting between analog voice signals and digitized signals, but lacks integrating modalities that convert a from a first communication protocol to a second communication protocol (i.e. instant messaging,

email). Invention II, has a separate utility such as integrating modalities and employing a server that converts from a first communication protocol to a second communication protocol (i.e. instant messaging, email), but lacks integrating standard telephone, standard legacy voicemail, and digital voicemail communication modalities as well as converting between analog voice signals and digitized signals.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Geoff Sutcliff, Reg. No. 36,348 on 10 March 2008 the above mentioned groups were indicated to Applicant's representative, but no election was made.
